

ETI 2000

LABELLING MACHINE

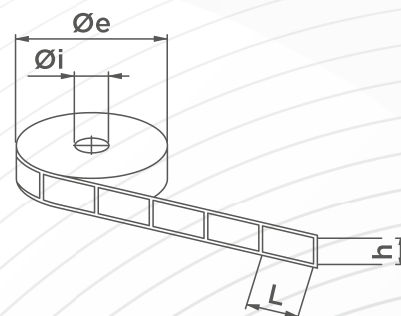

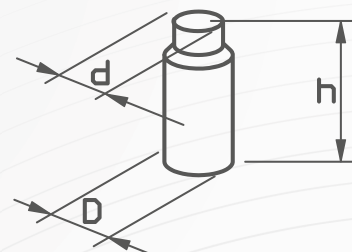

“ETI 2000” labelling machine is the result of years of experience in the chemical, pharmaceutical, cosmetic and food sectors. **To solve the most varied and complex problems related to the application of one or more labels on containers of various shapes** (bottles, cartons, tubes, syringes, boxes, cartons, bags, etc.). In most cases, the systems are customized depending on the applications required by the market. **ETI 2000 can apply horizontal vertical labels, on the top, bottom as well as multiple labels simultaneously on the same container.** The machine or the system can be used as a stand-alone machine or incorporated in a packaging line. **The best accuracy is ensured by “head” motorization through step motors.** The machine complies with CE and GMP regulations.
